EXPERIENCE

Product Designer — Shopify
07/2024 — Present

Payments, Merchant Services. End-to-end financial experiences for merchants at scale.

- Designed and shipped **Payout Errors Uplift**, reducing payout holds on merchant accounts by **43%**.
- Redesigned the legacy payouts experience for dual processors (Stripe and PayPal), unifying statuses, timing, and multi-currency cash flow into one trustworthy model.
- Sole designer on **Shop Balance**, a 0–1 buyer wallet in the Shop App, defining product vision and core utility with PM.
- Designed contextual AI assistance for Managed Markets product restrictions, restoring merchant control over cross-border compliance.
- Led end-to-end design for local payment methods in Mexico across mobile checkout and Shopify Admin.
- Contributed code to the Admin Playground, an internal coded prototype of Shopify Admin.

Product Designer — TD Securities
01/2024 — 07/2024

- Defined requirements, user flows, and high-fidelity designs for The Factory, a platform serving partners across FX and commodities trading.
- Partnered with design leadership and engineering to build a new design system for The Factory's interface.

Product Designer — SearchEye
08/2022 — 01/2024

- Led 0–1 product design across web and mobile for a B2B SaaS platform unifying SEO management channels.
- Owned complex features end-to-end, driving a **150%** increase in platform engagement at launch.
- Ran generative and evaluative research and presented prototypes to the CEO, PMs, engineering, and customer success.
- Built and maintained the design system to WCAG 2.1 AA.

Program Tutor — Sheridan College
09/2022 — 04/2023

- Mentored Digital Product Design students on UX/UI, research, and product strategy; ran 5 Figma workshops.
