EXPERIENCE

Product Designer — Shopify

07/ 2024 — now

Currently part of the Payments team in Merchant Services, designing end-to-end financial experiences that help merchants manage payouts, providers, and local payment methods at scale.

Designed and shipped Payout Errors Uplift, reducing payout holds on merchant accounts by 43% to date.

Championed end-to-end designs for the launch of local payment methods in Mexico, spanning mobile checkout and the Shopify Admin platform to support international expansion.

Built and contributed code to the Admin Playground, an internal prototype of the Shopify Admin.

Product Designer — TD Securities

01/ 2024 — 07/2024

Create requirements, user flows, and high fidelity mockups to refine The Factory's user-centric design by understanding business and user needs of our partners within FX and commodities trading.

Collaborate with the senior manager, designer, and engineers to build a new design system which will guide the look and feel of The Factory's user interface.

Product Designer — SearchEye

08/ 2022 — 01/2024

Led 0-1 product design for a SaaS startup, creating mobile and web experiences for an SEO management platform that unifies diverse SEO solution channels.

EDUCATION

Digital Product Design — Sheridan College

09/2021 – 04/2022

With Honours (Graduate Certificate)

Web Development — Juno College

04/2023 - 06/ 2023

Bachelor's of Music — University of Toronto

09/2017 – 04/2021

SKILLS

Figma, Jira, Adobe, Whimsical.

Design thinking, market research, user research, heuristics. storytelling.

Journey maps, user flow, low-fidelity sketches, prototyping, usability testing, wireframing.

CERTIFICATIONS

Ethical Conduct for Research Involving Humans (TCPS-2)

09/2021 - Government of Canada

Own and design complex product features from end-to-end resulting in a 150% increase in platform engagement when shipped.

Conduct generative and evaluative user research and synthesize insights informing key design decisions in userflows and wireframes.

Facilitate discussions, brainstorm, and sync meetings to effectively communicate with the CEO, product managers, engineers, and customer success through high fidelity prototypes and mockups in Figma

Establish and maintain a comprehensive design system, ensuring visual and typographic consistency which abides by WCAG 2.1's AA requirements.

Program Tutor For Digital Product Design (GC) — Sheridan College

09/ 2022 — 04/ 2022 | Oakville

Provide guidance and mentorship to students in the Digital Product Design Program, focusing on key design concepts encompassing **UX/UI principles**, user research, and product strategy.

I facilitated **5 workshops** covering essential **Figma** techniques and features, including autolayout, component properties, and smart animate.
