LYDIA SHAN

Product Designer

EXPERIENCE

Adaptive Security
Jun 2026 – Oct 2026

Product Designer

- Core Workflows: Redesigned the training index; 9 of 10 customers said finding Trainings got easier during usability testing.
- Shipped production code, with six pull requests open or merged, including the compliance reporting popover that clarified postback controls.
- Launched Test Send Notifications in 5 days after noticing customers duplicating Trainings just to test them. Wrote the help article and launch post.
- AI Content Creation: Designed and built a working prototype of a 0-to-1 AI-native Training Module Builder in one week, with customers saying they'd use it right away in concept testing calls.

Shopify
Jul 2024 – Jun 2026

Product Designer

- Designed end-to-end for the Payments team across consumer surfaces, spanning merchant B2B workflows, mobile checkout, and the Shop app for millions of global buyers.
- Defined the 0-to-1 North Star for Shop Balance, designing a mobile-first, buyer-facing financial product for storing and spending funds.
- Led Payouts Uplift from vision to launch, improving payout transparency and reducing holds by 43%.
- Introduced AI-assisted UX patterns for Managed Markets, reducing support tickets for product restrictions by ~18%.

TD Securities
Jan 2024 – Jul 2024

Product Designer

- Designed complex financial workflows for FX and commodities trading platforms.

SearchEye
Aug 2022 – Jan 2024
